

LEDP75 product information sheet

With aircraft-grade materials, patent-pending technology and ultra thin profiles, the LED Series is the next generation of TV mounts designed for newer, lightweight LED, LCD, Plasma and 3D TVs. Designed specifically for LED TVs, the LEDP75 is the only full motion mount that offers Dual-Mode Installation™ for low profile on-wall mounting or flush in-wall mounting.

Product Benefits

- Dual-Mode Installation™ for low profile on-wall mounting or flush in-wall mounting
- Tilt, pan, swivel with ArmGlide™ for perfect TV placement
- Unique arm design nests completely for a flush profile to complements ultrathin TVs
- Compatible with LED, LCD, Plasma and 3D TVs
- Engineered from extruded aluminum with a brushed and anodized finish
- Delrin™ bushings for smooth movement at every joint
- Integrated cable management hides and routes wires
- Post-installation screen leveling
- On-wall bezel has knock-outs for cable management and tabs to guide wires
- Cable management gasket allows wires to pass through back of box while still providing a nearly airtight seal
- Includes adapters for greater VESA compatibility
- Lift n' Lock™ for easy and quick installation
- Trim plate conceals mounting hardware and is paintable to match any wall
- Installation template for simple and accurate mounting
- Eco friendly product design and packaging
- Includes complete hardware kit

Dual-Mode Installation™ allows you to mount the LEDP75 on the wall for a low profile look or in the wall for a completely hidden look.
